DISCLAIMER

Omega Products International [Manufacturer] MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THE PRODUCT(S) SOLD HEREIN. The recommendations, suggestions, statements and technical data are based on the best knowledge available to Manufacturer and are given for informational purposes ONLY and without any responsibility for their use. It is expressly understood and agreed, as a condition of the use of this product, that the buyer's sole and exclusive remedy for any claimed defective product against Manufacturer shall be the replacement of products actually proven to be defective. Handling and use of the products are beyond the control of Manufacturer; therefore, no warranty is made, expressed or implied, as to the results obtained from the use of the product or against any claims for infringement of patents resulting from use of the product. Under no circumstance shall Manufacturer be liable for incidental or consequential damages arising out of the use or the improper application of the product. Before applying the product, the user shall determine the suitability of the product for his/her independent use, assuming all risks and liability whatsoever in connection therewith. This writing constitutes a complete and exclusive statement of the understanding between Manufacturer and Buyer.

NOTES:

1. AkroGuard joint treatments options:
 - AkroFill with Reinforcing Mesh
 - AkroGuard with AkroGuard Fabric
2. Spot fastener heads and surface defects with Omega AkroFill.
3. For joints greater than 1/8" wide, use a low-expanding urethane spray foam, trimmed flush with the sheathing surface.

GENERAL NOTES:

- Prior to application, refer to current AkroGuard data sheets, specifications, and other literature for detailed installation requirements.
- A bond breaker, such as building paper, must be used over the AkroGuard when claddings such as stucco and adhered stone veneer will be applied.
- Products not identified as Omega are typically provided by other manufacturers and may not be installed by the contractors that install Omega products.

THE ARCHITECTURE, ENGINEERING, AND DESIGN OF THE PROJECT USING OMEGA PRODUCTS IS THE RESPONSIBILITY OF THE PROJECT'S DESIGN PROFESSIONAL. ALL SYSTEMS MUST COMPLY WITH LOCAL BUILDING CODES AND STANDARDS. THIS DETAIL IS FOR GENERAL INFORMATION AND GUIDANCE ONLY, AND OMEGA INC. SPECIFICALLY DISCLAIMS ANY LIABILITY FOR THE USE OF THIS DETAIL AND FOR THE ARCHITECTURE, DESIGN, ENGINEERING, OR WORKMANSHIP OF ANY PROJECT. **AKROGUARD WATER-RESISTIVE
 AIR BARRIER**

**TYPICAL TERMINATION AT
 FOUNDATION**

DRAWING NO.: AGB 02.00

DRAWN: APRIL 2013

NOTES:

1. AkroGuard transition treatments:
 - AkroFill with Reinforcing Mesh
 - AkroGuard with AkroGuard Fabric
 - Approved Self-Adhered flashing
2. Sill must have a slope to the exterior to provide a positive means of drainage.
3. Prepare rough opening prior to window installation.

STEP 1: INSTALL A MIN 2" STRIP OF OMEGA TRANSITION TREATMENT EMBEDDED AT WINDOW CORNERS

STEP 2A: INSTALL A MIN 2" STRIP OF OMEGA TRANSITION TREATMENT EMBEDDED AT WINDOW CORNERS AT SHEATHING JOINTS

STEP 2B: INSTALL A MIN 9" STRIP OF OMEGA TRANSITION TREATMENT EMBEDDED ALONG SILL RETURNING A MIN OF 4" ALONG JAMS

GENERAL NOTES:

- Prior to application, refer to current AkroGuard data sheets, specifications, and other literature for detailed installation requirements.
- A bond breaker, such as building paper, must be used over the AkroGuard when claddings such as stucco and adhered stone veneer will be applied.
- Products not identified as Omega are typically provided by other manufacturers and may not be installed by the contractors that install Omega products.

STEP 3A: INSTALL A MIN 9" STRIP OF OMEGA TRANSITION TREATMENT EMBEDDED ALONG JAMBS, LAPPING A MIN OF 2" OVER SILL TREATMENT

STEP 3B: INSTALL A MIN 9" STRIP OF OMEGA TRANSITION TREATMENT EMBEDDED ALONG HEAD

STEP 4: APPLY AKROGUARD OVER ROUGH OPENING TREATMENTS AND SHEATHING

AKROGUARD WATER-RESISTIVE AIR BARRIER

TYPICAL ROUGH-OPENING USING OMEGA TRANSITION TREATMENTS OPTION A

DRAWING NO.: AGB 03.00A

DRAWN: APRIL 2013

NOTES:

1. AkroGuard transition treatments:
 - AkroFill with Reinforcing Mesh
 - AkroGuard with AkroGuard Fabric
2. Sill must have a slope to the exterior to provide a positive means of drainage.
3. Prepare rough opening prior to window installation.

STEP 1: INSTALL A MIN 9" STRIP OF OMEGA TRANSITION TREATMENT EMBEDDED AT WINDOW CORNERS, RETURNING A MIN OF 4" ALONG SIDES

STEP 2A: INSTALL A MIN 4" STRIPS OF OMEGA TRANSITION TREATMENT EMBEDDED AT SHEATHING JOINTS

STEP 2B: INSTALL A MIN 4" STRIPS OF OMEGA TRANSITION TREATMENT DIAGONALLY ACROSS TREATED CORNERS

STEP 3: INSTALL A MIN 9" STRIP OF OMEGA TRANSITION TREATMENT EMBEDDED ALONG JAMBS, HEAD, AND SILL; LAPPING A MIN OF 2" OVER CORNER TREATMENTS

STEP 4: APPLY AKROGUARD OVER ROUGH OPENING TREATMENTS AND SHEATHING

GENERAL NOTES:

- Prior to application, refer to current AkroGuard data sheets, specifications, and other literature for detailed installation requirements.
- A bond breaker, such as building paper, must be used over the AkroGuard when claddings such as stucco and adhered stone veneer will be applied.
- Products not identified as Omega are typically provided by other manufacturers and may not be installed by the contractors that install Omega products.

AKROGUARD WATER-RESISTIVE AIR BARRIER

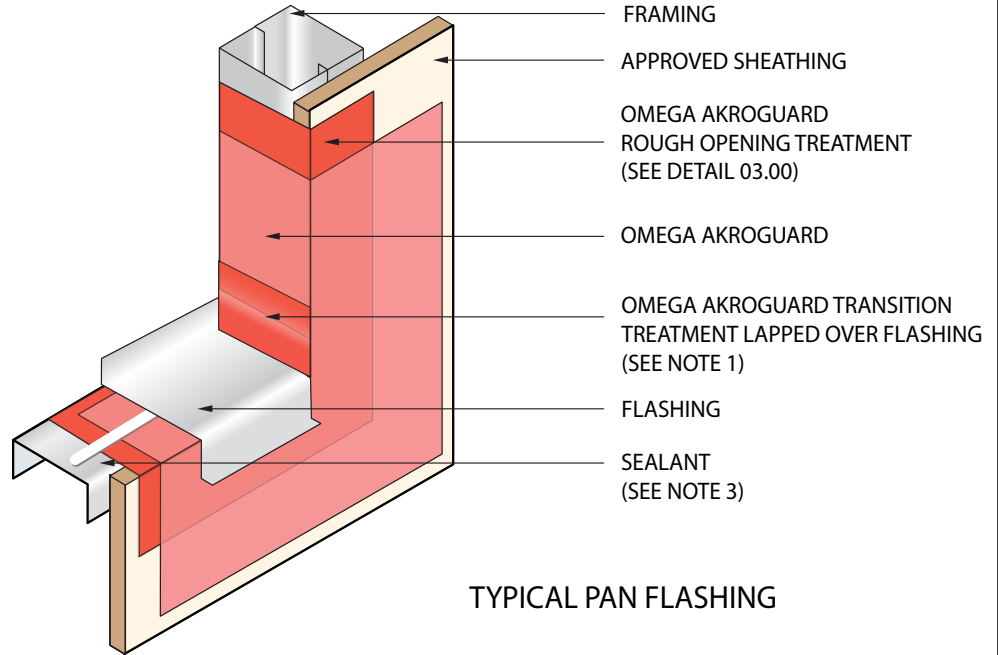

TYPICAL ROUGH-OPENING USING OMEGA TRANSITION TREATMENTS OPTION B

DRAWING NO.: AGB 03.00B

DRAWN: APRIL 2013

NOTES:

1. AkroGuard transition treatment options:
 - AkroFill with Reinforcing Mesh
 - AkroGuard with AkroGuard Fabric
 - Approved Self-adhered Flashing
2. Pan flashing should be sloped to the exterior to have positive drainage and should have end and side dams.
3. Install pan flashing in wet sealant to create a continuous air barrier under flashing.

GENERAL NOTES:

- Prior to application, refer to current AkroGuard data sheets, specifications, and other literature for detailed installation requirements.
- A bond breaker, such as building paper, must be used over the AkroGuard when claddings such as stucco and adhered stone veneer will be applied.

Products not identified as Omega are typically provided by other manufacturers and may not be installed by the contractors that install Omega products.

AKROGUARD WATER-RESISTIVE AIR BARRIER

TYPICAL WINDOW PAN AND HEAD FLASHING

DRAWING NO.: AGB 04.00

DRAWN: APRIL 2013

NOTES:

1. AkroGuard transition treatment options:
 - AkroFill with Reinforcing Mesh
 - AkroGuard with AkroGuard Fabric
2. Expansion joint must be designed to accommodate anticipated movement. Contact sealant manufacturer for recommendations.
3. Allow sufficient slack in membrane to accommodate movement in the expansion joint.

GENERAL NOTES:

- Prior to application, refer to current AkroGuard data sheets, specifications, and other literature for detailed installation requirements.
- A bond breaker, such as building paper, must be used over the AkroGuard when claddings such as stucco and adhered stone veneer will be applied.
