- ♦ Pre-sanded for consistent quality and worry-free results, meeting ASTM specs on every job

Super Cement sanded is the premier alternative to field mixed portland cement scratch & brown plaster.

Diamond Wall exceeds ASTM C926 and provides continuous exterior insulation meeting new energy saving requirements.

3000 lb
Bulk Sack

SUPER CEMENT

Premium All-Purpose Plastering Cement

- Super Cement Sanded for Scratch and Brown is a factory prepared blend of portland cement complying with ASTM C150. Approved sand and proprietary ingredients provide unmatched workability, reduce cracking and increase early strength after application
- Available in fibered or non-fibered

FEATURES	BENEFITS
Factory Blended	Batch to batch consistency - just add water
Proprietary Mixture	Increased early strength and workability
Eliminates Lime	Cost savings and reduced inventory
Pumpable	Increased productivity; reduced labor costs
Less Alkali	Reduced efflorescence

FIBER-REINFORCED FORMULA

- The Diamond Wall Insulated Stucco System provides the energy savings builders need
- ICC-ES ESR1194 Approved with a track record of use on thousands of homes for over 30 years

FEATURES	BENEFITS
Factory Blended	Batch to batch consistency
Durable	Superior weathering properties
Fiber-reinforced	Reduced cracking
Single Application	Reduced labor and scaffolding costs
1 Hour Fire-rated	Single-family, multi-family, and commercial applications
