AkroFlex Finishes are 100% acrylic based finishes using the latest Dirt Pickup Resistance (DPR) technology that are designed to add texture and color to approved exterior or interior surfaces. These products provide long lasting, weather-resistant, durable finishes that will resist discoloration, fading, or mold growth. A wide variety of textures are possible depending on the finish choice and application method. Refer to the individual AkroFlex Finish data sheets for additional information, including application instructions.
