

# Standard Color Crossovers

PRODUCTS INTERNATIONAL

This document contains tables that crossover the new 2023 Omega standard colors to the old standard colors. Previously, there were two sets of standard colors: one for cement-based stucco finish (ColorTek) and one for acrylic-based textured finishes (AkroFlex/OmegaFlex). As of August 2023, Omega will have a single set of standard colors for both stucco and acrylic finishes. For additional information on the changes to the standard colors, visit Omega's website: <https://omega-products.com/standard-colors/>. Note, all previous standard colors are still available to order.
